Please use these squares to mark your t-shirts. We use a 15” square to cut your shirts. If a shirt is smaller than 15”, or if a shirt has designs on both sides that you would like to use, there are a few options:

1. If both designs are large, we can make 2 squares from that one shirt.
2. If there is a small logo on a part of the shirt that you would like incorporated, we can appliqué that piece onto the side with the larger logo.
3. We can also combine up to four small logos appliquéd onto one square.

Front only	Back only	Front and back separate (2 squares)	Front and back together (1 square)	Small logo used with front with back (circle which side)
Front only	Back only	Front and back separate (2 squares)	Front and back together (1 square)	Small logo used with front with back (circle which side)
Front only	Back only	Front and back separate (2 squares)	Front and back together (1 square)	Small logo used with front with back (circle which side)
Front only	Back only	Front and back separate (2 squares)	Front and back together (1 square)	Small logo used with front with back (circle which side)
Front only	Back only	Front and back separate (2 squares)	Front and back together (1 square)	Small logo used with front with back (circle which side)
